

26) Austria not only is ~~one of~~ the country  
which we had the most numerous historical  
connections, but she is our first western rival  
neighbour too. (manuscript of Gen. Bela Kivaly  
1957)

We ~~to~~ even were connected with the  
west through Austria.

During the short-lived liberal period  
of Kommuunist tyranny with Austria at  
the first place, there has been commen-  
ced a ~~sub-sidid~~ mutual communication.

It always was a prominent event  
in Wien when the Hungarian soccer  
team had there a match, and the same if  
the Austrian one played in ~~the~~ Budapest.

A lot of Austrian tourists came to  
Hungary enjoying the gayness of our people  
and the beauty of our country not ~~to~~ having  
been annihilated even by Russian  
occupation and Kommuunist tyranny.

The Hungarians - on the other hand -  
having the opportunity to visit Austria,  
were able to break the bar of western  
civilization, culture, democracy and  
whatever these concepts ~~mean~~ mean.

Thus - even those who in some respect believed in the Communist doctrine, were able to compare the facts ~~as~~, the truth in Austria, in the west, with the lies, what Russian Communist propaganda told about these countries.

Thus the Russians and their puppets in Hungary ~~to~~ are right! Austria played a prominent role in the Hungarian national democratic revolution and freedom fight. But that role even was not even like to that ~~of~~ one, what the Russian charges told.

Austria was incessantly and honestly neutral in ~~all~~ political as well in military respects.

Austria did not ~~to~~ interfere with the Hungarian cause. Austria even did not allow to enter through her territory any agents, weapons, units or what ~~is~~ - even factors which might have influenced our honest and democratic movements in any way.

Austria's roll was to open the eyes of those, who visited her during those few months, who ever returned from Austria after a short trip - even if he or she was in any respect - Communist, sympathizer, or collaborator - at least began to doubt but often lost all of his confidence in Communist methods of life.

Austria was the place where the Hungarian youth got the first impression of what this word, west and democracy, mean. This impressions encouraged them, to commence their honest and decisive struggle for freedom.

Austria was neutral in all respects. Nevertheless with the unsurmountable strength of the superior system of life made a deep impression and inspired

I am afraid to express - inspired the Hungarian freedom fighters too.

Austria's roll - thus - was not in any respect active one. Austria's roll

was like to the effect, the sun  
shine, which helps the snowdrop to pierce  
the ice and snow and to bring its

buds to the open air, and which helps  
the buds to turn into flowers.

The Austrian democracy was for us  
the first sunshine in the darkness of  
Kommunism.

Austria's will existed only in  
spiritual respect and never in practical  
one.

Let me be allowed to declare here  
that:

1) The Hungarian people commenced  
their national democratic revolution and  
freedom fight on their own decision,  
on their own responsibility,  
without any foreign  
initiative!

During the nat. dem. revolution  
we annihilated the hated inner enemy  
the secret police  
the KP  
and most of the state and

community authorities established by the Russian colonialists.

2) At the first aggression the Hungarian freedom fighters subdued the Russian army units in Op. Thus to avoid complete annihilation they were compelled to evacuate the Capital.

3) ~~The~~ During the second aggression the ~~Russian~~ numerical superiority of the aggressor subdued an armed resistance, though never were and will be able to defeat the Hungarian people's wish for liberty!

1000000 of men not w. 10 count

4) During the national democratic revolution and freedom fight the Hungarian people, the freedom fighters did ~~the~~ not get any material support from ~~the~~ not a single ballot ~~or~~ crossed the Austrian border.

5) Finally our movements were national and / democratic ones.

Completely opposing all kinds of Communism and well as all kinds of fascism as well.

communism could endure  
free election  
freedom of speech  
- of press etc.

No! Ladies and gentlemen, no  
sort of communism could allow even  
the germ of liberty. The essence of  
humanity means a

longing for freedom  
the essence of communism means  
the complete suppression of  
human liberties

These two factors are not to be  
reconciled.

(political system contains)  
If the society consists of hu-  
man rights, they used to enlarge them-  
selves. If you open the door for the fresh  
air the more they grow the more  
they demand. If liberty is present in ~~any~~ <sup>some</sup>  
parts of life it is not to be ~~to~~ suppressed

in other parts of life!

There are two ways for human  
society at the present modern social  
conditions among  
circumstances:

either the full freedom - like we enjoy  
on that blessed spot of the globe  
which can only make mankind happy  
and contented

or dictatorship ~~not~~ like the system  
behind the iron curtain, where  
let it called bolshevism  
stalinism  
+ + +  
+ + +  
goulashism or  
communism!

Whatsoever! All are  
All of them of them

are repressive  
lack of human rights  
lack of liberty.

And we, who come from behind  
the iron curtain are the compr-  
tent witnesses to prove:

without human right!  
no human life exists.

In the communist system there are no  
free happy human being only slaves  
of labor, slaves of doctrines  
slaves of the party  
slaves of the Russians.

And we Hungarian freedom fighters  
hated to be slaves. We wanted to be  
free citizens. Thus we ~~to~~ repelled to  
endure any kind of Communism. We  
wanted to live in democracy. Your  
movement

was no sort of Communist Reform  
efforts, but a  
firm national and  
pure democratic one.

Though as I told these movements  
were completely Hungarian ones without  
foreign initiative or  
even interference,  
nevertheless they should be consid-  
ered the affair of all Humanity, beca-  
use the essence of these struggle  
meant  
the fight for the sanctity of  
Human rights,  
the fight for the sanctity of  
the U.N. chart!

Just there for we are compelled  
to definite the experiences of that  
struggle.

We may deduce experiences:

- 1) In international respect
- 2) In social, respect
- 3) In the respect of ~~concerning~~ In the respect of

Weltanschauung and finally we could answer the question <sup>4</sup> How is it possible to believe in every promise of the Communists?

*Just wie ein Atom unter liberaler Relation. Keine 24h. Block = nicht + nicht erledigt*

1) International experiences

*Osar & europäer merkwürdige wie a level thinking*

We should ponder: *it free field* what would have meant for the free world if the Hungarian and freedom-fight had not been forsaken.

What would have it meant if the human rights - achieved by the nation - would have not been allowed to be trampled down by a foreign power.

We have to ponder what it means that 13 U.N. resolutions ~~are~~ exist which are neglected by a member of the U.N.

Very seriously we have to state:

The future of the U.N depends on:  
how it is capable to carry out them.

We Hungarians, believe in the future of  
the U.N. We believe, that soon or latter  
this way or that, the

resolutions will be carried out!  
The Russians will be compelled  
to withdraw!

Free elections shall have to be  
held and Hungary will be free democ-  
ratic country.

To attain this we have to do much.  
All free nations should demand  
a special session of U.N. general assembly  
as soon as the fact finding committee  
of the U.N. completed its threnings in  
Europe!

All the societies,  
organizations  
Trade unions  
peasant  
unions of scientists  
religious organizations and all  
sorts of organizations which have not to  
be neutral when basic human rights  
are annihilated

when genocide is carried out —  
all these organizations — Ladies and  
Gentlemen —

have to demand the full fulfillment of  
resolutions  
have to protest against the terror in Hunga-  
ry, where according to official reports  
24 patriots were executed,  
but according to  
reliable information 200-250  
patriots has been killed by the Russian  
suppressors and their Hungarian puppets  
since the end of armed resistance.

It is a shame of free world to  
let a bad brutal great power to  
terrorize a nation  
which is free in her soul  
& immaculate in her

aim  
representing the ideals of  
Humanity.

This are the international rela-  
tions of the Hungarian problem  
Ladies and gentlemen!

## 2) Social relations and concerns of Weistanschaung

1) The Hungarian revolution and freedom-fight proved that the Kommunist ~~at~~ colonialism suffers a very serious inner weakness.

a) It is weak militarily. The Hungarian freedom fighters in Bp. subdued the Russian armoured divisions. They evacuated Bp. to avoid complete annihilation.

The Russian army is weak, weaker than before trampling down the 'freedom-fight'. No army won even in morality out of a battle where armours were on one side - women, children and bare-handed men on the other.

How much they lost is showed by the facts, that

even Russian soldiers came over to our side, a lot of them (Russ soldiers) deserted the army. A Rus. general has been executed in Bp. during the freedom fight by Russian court-martial. Several Russ. soldiers offered their

He is a well  
regarded scholar  
lehel mered

weapons for food,  
 in the neighborhood of Paps there  
 has been carried out a battle between  
 letting Russian troops  
 on the water-krater to dead  
 Russian soldiers and several hundred  
 wounded ones.  
 They sought the Suez-channel and imperialists in  
 Hungary. Please ponder these little events  
 and you may find out how much  
 the Russian army suffered and lost  
 morally in Hungary.

The Russian army is weak in out-  
 fitment. Their weapons are absolutely  
 obsolete!

b) But the Russian colonialism is  
 not only weak militarily it attained  
 the period of wast crises!

~~All system of~~

All social systems having big  
 crises are in the period of decadence!  
 And mid decadence is the Communism.

1953. Crisis in Berlin Moscow
1953 - in Berlin
1955 - in Poland
1956 - in Hungary
1957 - in K.P. in the free world.

*ferment*  
*Stalin's death*  
*no hope*  
*Not date*  
*breakdown*  
*dearly*  
*Mo has died and killed*

Crisis and decay all over communist empire.

We human beings in the free world are obliged to know it and to do our best to enlarge these crises as long as the whole monster will collapse or annihilated.

2, The second experience is:

(for comsom) ~~the~~ decade was completely enough not to win the souls, but the contrary to disintegrate alliance the whole nation.

Never during our history the people showed such complet unity like the unity, was opposing whatever Kommunist was!

The most important factor is:

the youth, which has grown up in complete Kommunist Kontrolle propayande and education

not only repulsed to accept the Kommunist doctrines and methods, but just the youth were the most embittered antagonist of Komism!

3, To maintain Kom-munist regime only  
is possible by needed military control.  
Russian

No real power exists inside the  
nation for Komm. No real ally  
exists for Kommunist in the nation.

K.P. means in the satellites a small  
group of traitors - separated from the  
nation - supported only by the Russians.

4, The Hungarian events were the  
greatest crisis of Communism.

Nevertheless Communism is not  
annihilated.

The free people of the world are  
compelled to carry on fighting against  
this evil system.

on principal level  
on economic fields  
on every possible error.

We are obliged to persevere the wounded beast  
as long as it will succumb and will let  
free space for free nations.

As I promised I put a question  
"Is it possible to believe the  
Russian Communist?"

Unfortunately, we - coming from  
behind the iron-curtain - are seeing  
here all over the free world, that the  
free people  
are not realizing in its various  
ways, that

never, and never  
among any circumstances  
is it possible to believe the Russian  
to believe the Communists.

For example: during world war II,  
the Russians got abundance of American  
material for the fight against nazism.

They used only a part of these  
weapons and ~~abundant~~ great amounts  
of weapons were

~~stored~~  
stored  
in arsenals and later on used in  
Chinese war

The Chinese Communists won by  
with the weapons, the western powers offered  
for the U.S. to fight the nazis.

In Korean war the Russians  
had hidden ~~to~~ themselves behind  
Com. Korea and Com. China  
hindering

all agreements and imitating Atlantic  
nations.

Stalin scarcely left Geneva  
1955 summer signing the I Geneva  
agreement, when he delivered a speech  
in Peking, declaring  
how they will not  
carry out what accepted in Geneva,

In 1945. in Hungary there was  
a comparatively free election and  
parliamentary democratic  
lines were

The secret police and even the  
Russian authorities themselves  
arrested  
killed  
executed  
patriots and leading personalities and  
deliberately, but ruthlessly estab-  
lished  
a terror dictatorship!

They always spoke about  
"people's democracy"  
and even in that mean slogan each  
letter was a ~~lie~~ lie!

This system related the people in  
connection with their suppression  
and the democracy in connec-  
tion of the lack of the least liberty.

But to speak only about the free-  
dom fight.

On XI. 18 Russian government  
declared their willingness to have a pea-  
ceful settlement.

On the 2. of XI. they offered a  
mutual negotiation of Hungary's  
evacuation.

On the 3. XI. they reached an  
agreement and  
6 PM. This day  
in the Hungarian parliament this pre-  
liminary agreement was signed.  
According to that document  
the Russians  
accepted — even they offered

The following paragraphs:

- 1) Russia will completely evacuate Hungary.
- 2) Russia will withdraw her troops until 15. I. 1957.
- 3) Not to disturb public traffic a mutual Russo-Hungarian specific committee should be created to arrange the details of evacuations.
- 4) The Russian troops have to be celebrated, festively ferwelled when leaving Hungary.

The Hungarian delegation accepted and signed all these Russian proposals only with a single wish to bring the last evacuation day from 15. I. to 15. XII.

Otherwise the aim of the II. meeting 9<sup>00</sup> P.M. 3. XI. was to sign among festive circumstances the full agreement.

The Hungarian delegates were in every respect in diplomatic mission

depended by international laws,  
Nevertheless arriving at the  
Russian headquarters  
they have been arrested!

and the Russian aggression began!

Some weeks afterwards F. Nagy  
the premier of Hungary had been  
allured out of the Yugoslav embassy  
— on the promise not being arrested —  
nevertheless without any delay  
the Russians arrested him and  
his work.

The Russians

either oppose  
or veto all sensible  
agreements. If they sign one, they  
do not consider it compulsory for  
them if in any respect it is uneasy  
to do so.

The Russians, the Communists  
are in all respects inviolable.

In the minute when they  
would feel themselves strong enough  
or the West weak enough they  
would invade and attack the West.

Only a single politics is apt to handle them, and it is the policy of the strength,

like the Eisenhower doctrine of Central East.

Such sort of decisions have to be made.

Such sort of handling the Russians may lead to a solution.

and the only solution is a complete Russian withdrawal of the occupied territories. In which they have nothing to do.

Stalin wanted a ~~zone~~ zone of security in the satellite countries and got a zone of troubles, where the hate against Russians are growing day-by-day.

The earth is burning below the soul of the congresses and sooner or later this fire will burn them.

In Hungary  
Poland  
and E. Germany  
and in other satellite countries there are  
martyrs who died  
for freedom.

These martyrs did not die in  
vain. There will be new and new  
martyrs as long as these countries will  
be free.

And finally ladies and gentle-  
man let me be allowed to express  
how curious it is that  
you Austrians are hearing me  
speaking ~~of~~ a Hungarian  
speaking in English.
