

Duman, Nicholas

His book: "The Coming age of
World control" N.Y.
1942 Harper, pp 301. \$3.00

"This is both a diagnosis of our
present discontents and a
prescription for their alleviation.
Prof. Duman wants to see
established a universal system
of democratic control in which
individual states have
surrendered their sovereignty.
He is particularly insistent on
an international police
force." (For. Affairs,
Oct. 1942, P. 175.)
