

# Bevándorlók ETHNIC

amer. élet 2 részre osztás, in this order:

- (1) american - Hungarian,  
that is a H. who lives in Am
- (2) Hung-amer - An American  
of Hungarian origin.

The new country is magnanimous.

Does not begrudge the first group -  
freedom of Relig, language, customs, polit.  
conviction.

The new country was conceived  
by ideas of liberty, independence, constitution,  
national rights -  
etc etc

not impatient to transform the  
newcomers, is wise: This transformation  
can not be hurried - and can not be  
prevented either. The new country is  
benignly tolerant to those who  
are - for the time being - in the 1st  
group - in our case, who are still  
H's first - and every thing else only  
themselves Amer H's - which is  
all right for the new country for the  
time being. <sup>already</sup>

But the second phase is breathing  
down their necks heavily
