

our oriental characteristics mingled
with western culture - The pagan
love of freedom united with the
Christian faith of peace + justice.

The result was the flowering of
~~the~~ H. liberalism of the 19th Century
it was not ^{only} a trend of a general
period - but the fulfillment
of the ~~greatest~~ true Chr. spirit
of the greatest Hungarians - the
logical application of Chr's
teaching, "For whom" there is
no pagan, no Jew
who judge people not according
to their race, language or religion
- who wanted to weigh
people individually, who
wanted all of us to be
brothers - and wanted ~~us~~
the human soul to be
free
