Dear Rev. Vasvary:

A few days ago, I talked with Mr. Joltán Bombos of the "Szabadseg". He told me to write you and tell you to write an article about Mrs. Helen (Frank) Horvath - an article for either the Szabadseg or Vilag. He said "I will pay for the article" - since no one - outside myself - who knew more about her pioneering activities or field of education; Philanthropy and much more. Mr. Bombos feels, since there is an active interest in "ethnics" an article about Mrs. Helen Horvath will be timely. Would you please do a good one? She was a remarkable woman and first in many fields. I am enclosing an article for an outline - should you need one.

Mr. Gombos asked me to send you
this note - Also I am sending to
Mr. Gombos a picture to be used with
your article. Hope you are well and
can do this article. Thank you much
