

Mint ölelt át reszkető karával!
Mint marasztott esdeklő szavával!
Oh, ha akkor látok a világba:
Nem marasztott volna tán hiába.

Kedves Odon Batyam!

It was certainly nice to talk with you on the telephone last nite from Morrell office (see my card enclosed) as we generally work to 4:30 P.M. but then we have a WATS line (connection with various states due to our many plants and our main parent company office in Boston) and so I could telephone you from Morrell office after 5 P.M. I will also try to telephone you again, as it is a real pleasure to talk with you and discuss items of Kossuth interest.

First of all, many thanks for your letter of 1-8-76, which I appreciated on the information concerning the "Kossuth" leányok, and the note to Marosvolgyi Margitkanak. She smiled when she read it and had hoped that you would leave or live closer so we could have you over for a magyaros dinner some evening (like we have had many igazgatok at our home, from Babolna, Madudvar, Baksá, Pecs, Nagyigmánd, Komárom, Budapest, etc., which was to do with my PR work for CPS.

I thought you might be interested in the enclosed materials:

8-19-75 BABOLNAI HIRADO (I get this regularly, and is of immense interest to me, as I personally know Dr. Burgert and the other officials there where we are guests when we stay in Magyarország)

Map of Borsod Megye (I have many such maps, ordered during the 1930s and 1940s) so if you are interested in any, let me know which megye and I might have it to zerox and mail to you.

Copy of "Komárom varanak megadása..." which I had typed back in 1930s from some book and now again located it.

Copy of letter 3-9-74 from Babolna, Dr. Burgert, although he sent it to CPS but this was my PERSONAL DONATION to Babolna.

-Copy of 9-18-1940 letter from my English teacher at one of my courses at nite, then I went to the University and got my degree cum laude...so what?
