Now this unprecedented story has been told!

**authentic
candid
revealing!**

The warmly personal family biography— including interviews —of the Eisenhower brothers, their father and mother, and their families.

HERE'S the Eisenhower story that's never been recorded before—in fascinating text and pictures.

In wonderfully human terms, it illustrates how Americans born in relative simplicity and poverty may rise in an atmosphere of freedom to whatever success their talents permit. A moving example of the greatness of the American heritage, and the moral strength of our forbears.

Only because this book attempts to demonstrate this truth have the Eisenhower brothers — Arthur, Edgar, Dwight, Earl, and Milton — consented to answer many questions put to them during interviews in

their homes. Their answers form a composite biography which includes, also, the story of their father and mother, whom they honor, and their late brother, Roy.

The text is augmented by a thirty-two page picture sequence. Of the fifty-nine photographs appearing in this book, fifty-eight have never appeared before.

"A fascinating, revealing and valuable book . . . a shaft of light on much that is best in America's democratic heritage."—ROSCOE DRUMMOND, *N. Y. Herald Tribune Book Review*. 2nd printing before publication.
