

The Case Worker makes George Konrád one of today's most important writers

1974

"A brilliant first novel about human refuse in Budapest . . . With this one book, George Konrád, himself a social worker in Budapest, strides to the forefront of contemporary European literature . . . A remarkable achievement." • —IRVING HOWE,

Front page, *N.Y. Times Book Review*

"The remarkable details of his invention rivet our eyes to his pages . . . The force of Mr. Konrád's language, the horrifying concreteness, the world he conjures up of a vast junkyard of people reduced to objects and the intimations he evokes that the only escape lies in idiocy or death . . . keeps one reading *The Case Worker* with fascination."

—CHRISTOPHER LEHMANN-HAUPT, *N.Y. Times*

The Case Worker by George Konrád

Translated from the Hungarian by Paul Aston
