

1852
Cleveland Feb. 2 - Monday

on balcony of
American House
11 AM
Mayor ^{CASE} You have met, + will again, see actions
more brilliant with pomp, + pageantry +
tumultuous joy - but nowhere
will you meet a people whose
hearts beat warmer for the cause
of freedom, or whose sympathies are
stronger for the oppressed than -
the People, the ~~Country~~, the
citizens of Cleveland."

Kossuth

"Yes gentlemen, Russia is about
to accomplish its despotic
preponderance over the world.
The principle of despotism +
despotic dominion can be only
beaten by the principle of
national independence +
freedom of self government."

Russia represents despotism.
Your republic of Amer. represents
national independence +
freedom of self government.

You, only you can beat down
the opposite & noble principle
- by acting as an executive
law of the nations... To come
to this, firm concord + harmony
is required. Russia fears

that concord + harmony, because
there is power in it; whoever
disturbs this harmony,
though animated by the purest
motives, is unavoidably
performing the business of Russia.
As for me, I will never do it.
I know Russia well + may every
man know it, that R. often
steals a light ~~from~~ ^{from} the shrine
of the Lord, to light a torch
for the devil with it

It, as a small nation, will
always be proud of the fact
that in the person of Kossuth
she gave a major political
prophecy to the world. Kossuth
was way ahead of his times -
no wonder the young giant, the
U.S. was unable to take his
words to its heart.

But Kossuth lives and raises
his voice again, to U.S. + the world.
May it ^{be} providence that
his prophetic words
would reach the hearts + minds of
all those, who are willing + able to
stop the approaching danger + ~~really~~
make democracy really safe for all mankind.
