These stunning rugs add a beautifully decorative touch under a glass-topped table, in a hallway or foyer, on a wall instead of a painting. And, of course, they are perfect for a vacation home or a child's room because they can take lots of rugged wear and tear with their tightly woven 60% wool /40% hair yarn composition. They will retain their looks for many years, vacuum up in a jiffy . . . and many are reversible!

CHOOSE FROM VIBRANT COLORED GEOMETRICS OR STYLIZED NATURE MOTIFS in sizes from 2'4 to 6'7x9'10 in imaginative colorways . . . mustards, oranges, yellows, mossy blues and greens . . . most just a few in each pattern. Each SCAN has a wide selection of styles and prices.
