FALUSSY ALATOS nyilatkozata

Today I had a long talk with Francis Uflaki in his office. Naturally we talked about our own predicament, losing our livelihood at the Ref. Fed. -

Uflaki just returned from Atlantic City where he visited the convention of the Amer. Life Ass'n (Bridgeport). He told me about the wonderful reception he was given & the friendly spirit & resentment against the gangsterism displayed by George Borsky Kerkos in staging the conspiracy against two of us.

Abros Falussy, N.Y. attorney told him:

"What else could you expect from a man like him, who ruined & ultimately killed Louis Szanto, that good & well meaning man who sacrificed everything he had for the Hungarian Cause -

I know this bec. I was his attorney  
at that time when Borshy +  
Jeso' likely were made equal  
partners with Santó by  
Contract and so those two voted  
him down at every subsequent  
occasions - From a man like  
Borshy who actually robbed  
Santó of everything, you  
could expect only this type  
of activity.
