

DOMOKOS, Géza

allegedly a physician
spent 2 or 3 yrs in the
U.S. 1939-1941, and later

Publ. a worthless, anti-Semitic
book: "A modern
America is a magyar's
élete" N.Y. 1941 9/15

A singularly unintelligent man
with a confused head (He says
that he is a Medical Doctor)
He probably was a male nurse
in a hospital (orderly)

(Orvosnak mondta magát, de
valójában csak Kórházi
ápoló volt.)
